

# JOYAL GEORGE K J

## FRONT END DEVELOPER

I am Joyal George K J, a dynamic and self-motivated 21-year-old web developer based in Kochi, Kerala, on a quest for mastery. My journey spans diverse interests, from web development and AI to technical production, baking, and more. With a solid foundation in HTML5, CSS3, Bootstrap 5, and React JS, I am a self-taught learner, swiftly embracing new technologies. Projects published on my GitHub Profile demonstrate my creativity and problem-solving prowess. Beyond technical acumen, I navigate AI tools, Google Suite, and social media adeptly. Eager to bring my innovation-driven mindset and diverse skills to contribute to your team's success. Connect with me on LinkedIn, Instagram, Twitter, Stack Overflow, and GitHub to explore my journey further.

### EDUCATION

#### FRONT END DEVELOPER

Bachelor of Computer Applications

M G University | 2021- 20224

#### Higher Secondary Education

Plus Two Computer Science

SDPY Vocational Higher Secondary School 2019- 2021

---

### EXPERIENCE

#### FRESHER

As a fresh and moldable addition to your team, I offer a tech-savvy edge and a diverse skill set honed through recent training and various learning platforms. Hiring a fresher like myself presents a cost-effective solution for the company, ensuring access to innovative talent without the higher salary expectations of experienced professionals. With a long-term commitment and enthusiastic work ethic, I bring a fresh perspective and a willingness to learn, adapt, and contribute to the organization's success.
